Summary:

Software Developer committed to continual skillset development. Strong understanding of core programming concepts and familiarity with a wide-range of languages and concepts. Dependable and responsible team player committed to process improvements with focus on quality and efficiency.

Technical Highlights:

- Agile/Scrum Methodology
- Python/ MVT / Tkinter
- Django
- Object-Oriented Concepts
- HTML5
- CSS3
- JavaScript / jQuery
- Bootstrap
- SQL / SQLite / MS SQL Server
- Azure
- Visual Studio
- TFS /Git/GitHub

Non-Technical Highlights:

- Strategic Thinker
- Excellent Communicator
- Process-Focused
- Dependable
- Analytical
- Performs Well Under Pressure

Professional Experience

Software Developer (Intern) – Prosper IT Consulting

(December 2019 – January 2020)

Portland, Oregon

- Worked within the Agile Methodology such as Scrum in a project with a team of developers, the project consisted of a 2-week sprint.
 - Contributed to a Python MVT Web Application, we created software designed to help hobbyists keep track of their collections of items, as well as interact with APIs and use Data Scraping to get up to date information on things related to those collections and hobbies.
 - Utilized HTML5 & CSS3 to add styling to all of the templates in the Travel App.
 - Built database mapping classes using Django Model to track and insert details of destinations traveled by clients.
 - Collaborated with other developers to handle issues related with deployment of Django based applications.
 - Cooperated with a team of developers in a project utilizing Git and Azure DevOps version control systems.
 - Learned to quickly adapt to unfamiliar technologies and to utilize technical terminologies in clever ways to explain concepts, thus facilitating communication between teammates.

Personal Assistant – Pier Tax and Executive Services

(October 2013 – Present)

Queens, New York

- Utilized ATX software to prepare and assist in preparing simple to complex tax returns for individuals.
- Use all appropriate adjustments, deductions, and credits to keep clients' taxes to a minimum.

- Compute taxes owed or overpaid, using adding machines or personal computers, and complete entries on forms, following tax form instructions and tax tables.
- Check data input or verify totals on forms prepared by others to detect errors in arithmetic, data entry, or procedures.
- Answered phone calls and assisted clients with questions regarding tax preparation.

Education

Software Development

(2019 – 2020)

The Tech Academy, Portland, Oregon

- Comprehensive overview of software development with courses in HTML5, CSS3, JavaScript/jQuery, SQL, Python, MVT, Source Control (Git), and Agile/Scrum methodologies.
- Participated in developing real-world applications in an Agile team environment to deliver bug-free & functional software in 2-week sprint increments.
- Trained to program/develop in several computing languages such as Python, JavaScript, HTML, CSS, SQL which are necessary for Full-Stack Developing.
- Learned and developed using technologies/frameworks such as, Django Framework, jQuery, CSS Bootstrap Framework which facilitate Back-End and Front-End in web development.

Associate of Science

(2015– 2017)

CUNY New York City College of Technology, Brooklyn, New York

- The associate in science degree is a comprehensive liberal arts and sciences curriculum emphasizing the application of scientific knowledge and mathematics for problem-solving. This prepared its students for continuing education in the sciences, engineering and mathematics as well as the professional world.
